Here is the reason why
WHY CHOOSE US

OpenPark solution is developed from the ground up for modern smart city architecture taking in consideration the latest technologies for seamless mobility integration

INTEGRATED TOM

High performance Ticket office Machine.
Equipped with large-capacity memory of 4 or 8 or 16GB RAM, TOM-H offers a complete integrated appliance including all what you need for ticket vending, subscription renewal and accounting.

MAIN FEATURES

- Excellent printing and scanning experience
- TVM-H adopts an 80mm (54mm optional) thermal printer. At the same time, it can be equipped with a highly sensitive 2D scanner
- Anti-interference touch screen
- To meet your demand on worry-free dual-display interaction, we employ an industrial-grade touch chip which is more resistant to EMI. You can feel free to use POS-H even near high-power devices
- Better visual experience
- The 15.6 " main display has a multitouch screen, and secondary display options (15.6 ", 11.6 ", LED) are open for your choice. Below are some options
